Facebook most used in Switzerland, Instagram second - study

Friday 5 June 2015 | 11:36 CET | News

0

Swiss consumers use Instagram more than Twitter, but Facebook is still the most used social network, according to a survey of 900 Swiss consumers by online marketing agency Xeit. The survey found that Google+ is also more used than Twitter. Other findings include that mobile internet is used at least once a week by 91 percent, growing from 79 percent in 2014, while 61 percent sometimes feels stressed about being online all the time.
